How
We Work

We have embraced the majority of the widely used open source web development platform.

FULLY DEVOTED TO THE PROJECT

In the SGR Software Solution we hired highly educated software developers and provide them encouraging environment so they can repre- sent their best potential & skill.

AGILE SOFTWARE DEVELOPMENT

Our team follow scrum methodology so all participate along with the client will be stayed in loop.

ALL THE TEAM IS ALIGNED

Early discussion in the morning on a regular basis at the office. We planout the stuff and any challenge that has to be faced during the week. We have set the culture and also believe that communication is the key to execute the requirement of clients. Thus we company organize events regularly in which different teams participate and share ideas.We will make sure that group work sustain with sharing sessions, code reviews and daily discussion.

STABLE DEMO ENVIRONMENT

We are providing the demo with a test or real data. We are making a staging website first and later on once client approve we will apply the changes to the LIVE website

QA AND TESTING

Testing & validation are very important part of the development so we have hired dedicated resources for tester role.

CODE IS ALWAYS ACCESSIBLE - GIT/SVN

Code is the intellectual property so we keep them accessible and secured with GIT or BitBucket.

Mobile App - Works

Our projects ranges across diverse industries,companies and geography with strict adherence to high quality and time.
